

# Export a Method

Note

**Method** export can be performed in two ways, depending on whether you want to export an audit method from the **Library** or the method of a specific audit. The function's availability depends on your license.

## Export a Method from the Library

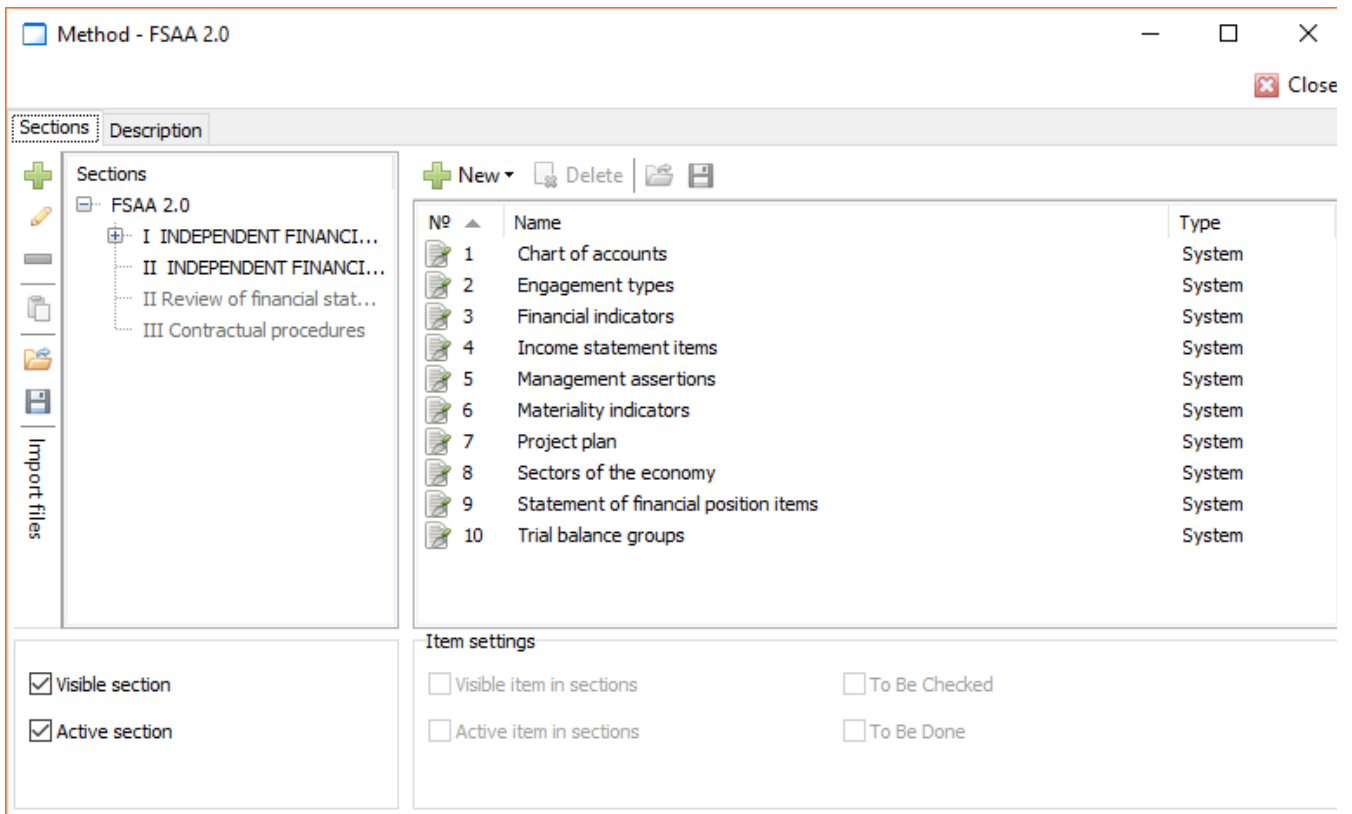

To export an audit method from the **Library**, follow the steps:

1. Open the **Settings** tab and click the **Library** button.
2. Select the desired method.
3. Click **Edit**.

The screenshot shows the AuditDesktop (FSAA) application interface. The top navigation bar includes tabs for Home, Common reports, Work management, Planning, Settings, Audit, Risks, Reports, and Statements. The Settings tab is active, and the Library button is highlighted. The main content area displays a table with the following columns: Code, Name, and Short description. The table contains one entry with Code 'FSAA 2.0'. The bottom status bar shows 'Audit: ABC AG. (2016) 0001'.

Code	Name	Short description
FSAA 2.0		

4. Open the **Sections** tab, select the method's main section and click **Export**.

5. Choose where you want to save the method on your computer. Methods are saved as files with **.ecm** extension. Click **Save**.

## Export an Audit Method

To export the method of a specific audit engagement, follow the steps:

1. Open the audit engagement.
2. Open the **Audit** tab and click **Audit approach**.
3. Open the **Sections** tab and select the method's main section.
4. Click the  **Export** button.
5. Choose where you want to save the method on your computer. Methods are saved as files with **.ecm** extension. Click **Save**.
